cakes, etc.

Corner Street between Gold and Silver Avenues.

ALBUQUERQUE, N. M.

### WASHINGTON GOSSIP.

#### An Alleged Forger Shipa-The Proteus Inquiry—The Trade Dollar.

Washington, Jan. 3.—The Star, says: Clarence M. Barton for several years connected with different papers in this city, is missing, and it is alleged has left behind him a number of forged endorsements on which he had obtained money. Among the names said to have been forged are William M. Dickson the foreman of the first star route jury and Henry D. Battle, a merchant. Gen Brady's name is on some of the paper, but it is not ascertained whether he obtained any money on this. The amount of the fraudulent paper and its extent are unknown. Barton was night editor of the Republican when an affair occurred between the Saltero brothers and himself which resulted in the death of the elder Saltero.

The national board of health has information, communicated by the state department of the continuation of cholera in Alexandria. Judge Farman of the international tribunal at Cairo says: "There are from one to three cases per day resulting in death and many more in which those who are attacked recover." He estimates the number of deaths from cholera during the past summer as 200,000, that given in the official estimates, 48,000 to 50,000. Owing to the want of proper organization, however, the returns are not trustworthy. The consular general reports that in well instructed circles the number of victims estimated as not below 65,000 to 70,000. In many villages in the interior, he says, the majority of the laboring population have died. In some instances nearly entire communities have disappeared so that not sufficient effective hands remain to cultivate and harvest the crops.

Capt. Pike of the Proteus was before the Arctic board to-day and gave his views concerning the best plan to be adopted to secure success by the next expedition for Greeley's relief. Lenden Kent, Lieut. Garlington's counsel made an argument to-day before the Proteus court in defense of his client. He analyzed the evidence, point by point, maintaining that under the instructions, and in view of the object sought to be accomplished, no other course than that adopted, in each case was prudent or possible. There was no disobedience of orders or unwise exercise of his discretion with which he was charged.

Representative Bland had an interview with Burchard, director of the mint, to-day with regard to the number of trade dollars now in circulation. The latter expressed the opinion that between 5,000,000 to 6,000,000 were out and in the hands of traders and people generally. Bland says that the government is in the possession of 15,000,000 originally coined, he thought had been exported or remitted. Bland says it is questionable whether the government having issued the trade dollar with the stamp of the government upon it could be required to take it for government dues at its nominal value of one dollar. The attorney general decides that postmasters in order to be entitled to receive the trade dollar, they must be provided with stamps for issuing and paying money orders must personally perform the duties required in the money order business in the government office in which it is not physically executed by his hand it must be executed under his immediate supervision by a clerk employed by him for that purpose and who is in no way employed by the government. The sundry civil bill, a Republican member of the committee said to-day that already he could see that there would be a division of opinion. Commissioner Bland has given a hearing before the committee to-day, as to the needs of the pension bureau. An appropriation of \$40,000,000 is asked and it has been estimated that that department that this should be in addition to the appropriation of \$65,000,000 which had not been used, of the money previously appropriated.

Leavenworth, Kan., Jan. 3.—John Byrn appeared before the United States commissioner to-day and entered a complaint against himself for collusion in defrauding the government out of \$100, while a member of the Nineteenth infantry United States Army in 1861. In his final accounts there was \$82 of clothing money due him and he and the company clerk raised it to \$182. The matter weighed on his conscience and he now wants to confess and get a pardon. The case will probably go before President Arthur.

The Postoffice Decision. Boston, Jan. 3.—A Washington special to the Journal says: The Attorney-General has ruled upon the question submitted him, in reference to the right of Post-Master Goddard of Portland to retain from the money order fund \$1,000 per year, as compensation for a clerk in the money order office there. The Attorney-General holds that the post-master has no such right and that the department can recover the amount thus retained \$7000. The ruling thus applies to all postoffices in various parts of the country.

Burned. Scottsdale, Pa., Jan. 3.—A fire last night destroyed the planing mills of Sam Gearty, residences of Dr. Clifford and Samuel Eicher, together with work shop and stables of the latter, and the Broadway hotel. Keeper's flouring mills and a number of residences were badly damaged. Loss \$22,000 partly insured.

Cotton Warehouse Burned. Augusta, Ga., Jan. 3.—Phinizy & Co's cotton warehouse took fire this morning at about 2 o'clock and the high wind and freezing water impaired the service of the fire department at the commencement of

the fire which got well under way before it could be reached. Three thousand six hundred bales of cotton were in the warehouse and this has been burning ten hours, and the entire fire department are still at work. The loss on the cotton will reach \$150,000, loss on the large ware house \$20,000, insurance \$145,000. At 7 o'clock the ware house of W. H. Ellis & Co, containing 800 bales of cotton, was destroyed by Phinizy's ware house. The fire is under control but the cotton is still burning. The estimated loss on cotton is \$200,000, loss on warehouse \$50,000, insured. The weather is so cold that the water is freezing almost as soon as it leaves the engine.

GOLDEN GATE CLEANINGS. A Dividend—Members of Parliament—An Oregon Fire. San Francisco, Cal., Jan. 3.—The Jackson Mining Company has declared a dividend of ten cents.

J. E. Redmond, a member of Parliament, and William Redmond, his brother, both of whom have been working for the Irish National league in Australia, have arrived here. The former stated to the Associated press representative that prior to his visit there had been no organized movement in Australia. During his stay he had addressed 142 meetings and established 300 permanent branches and collected \$75,000. He had created a national convention to be held yearly, the meetings of which were to be comprised of delegates from all the colonies. The bishops supported the movement and wrote approving of the principles of the league, and with the exception of Arch Bishop Vaughan subscribed to the fund Redmond further stated that the colonies had subscribed about \$400 to the fund which will be used to defray the expenses of the convention. As members of parliament are not paid arrangements were made that the six colonies should subscribe yearly a sufficient sum for the Irish members elected. Under the auspices of the league Redmond will lecture here, Denver, Leadville and Omaha. His brother goes south and lectures at Tombstone, Des Moines and Dubuque. There will be two meetings at Chicago.

A Jacksonville special dispatch says: A fire this afternoon destroyed property worth \$60,000 in less than half an hour among which was the postoffice, insurance \$17,000. The meeting at the Grand Hotel this evening to make arrangements for holding the World's Fair in this city in 1887 was the most influential ever held on the Pacific coast. Gov. Stinson presided and read letters from the Pacific coast delegation in congress promising their support. It was resolved to provide a guarantee fund of \$1,000,000 as a special donation. A petition to congress and the state legislature for appropriations. The feeling is unanimously in favor of carrying the project through and there are no doubts about it. The meeting represented \$300,000,000.

### MASSACHUSETTS.

Death of Rev. Walsh Gov. Robinson Takes the Oath. Boston, Jan. 3.—Rev. Lawrence Walsh, formerly treasury of the American land league died at the Commonwealth Hotel this morning from apoplexy. Gov. Butler and staff were at the executive chamber during the morning and select Robinson to the State House, where he was warmly welcomed by Governor Butler. After President Bruce of the Senate had administered the oath of office to Robinson and Lieut. Gov. Ames, the Governor elect, at once began his address.

A Strike. Troy, N. Y., Jan. 3.—The compositors of the Troy Times office struck this morning without warning. The office has been a non-union office for years. The compositors demand that it be made a union office. The Times is paying more than the union rates, and no fault is found with the scale of prices. The proprietors, editors, and reporters are setting type to-day. The Times will not be made a union office.

Railroad Accident. Annapolis, Md., Jan. 3.—The passenger train on the Annapolis & Elk Ridge railway ran into a herd of cattle today and the locomotive, tender and three coaches were wrecked. Superintendent of construction Nicholas Deal was on the locomotive and was killed and seriously injured. Engineer Coulbarn and fireman Gables were slightly hurt. No passengers were injured.

Closed by the Sheriff. Pittsburg, Jan. 3.—P. H. Hunter the oldest and one of the largest confectionery establishments in Pittsburg, was closed by the Sheriff to-day. The amount of indebtedness is not known. The locomotive works of Porter & Bell, resumed work to-day at ten per cent reduction of wages. Fifty men were dropped from the regular force.

A Bank Failure. Chicago, Ill., Jan. 3.—The Daily News Decatur, Ills. special says: Livingston's bank, managed by Z. T. Banks for S. H. Merrill, failed to-day with liabilities of \$35,000. The manager speculated. Merrill who worth \$50,000 has assigned for the benefit of his creditors. Banks has disappeared.

A Compromise. Dubus, Pa., Jan. 4.—The firm of Putnam & Co., lumber dealers, with a capital of \$2,000,000, operating in Clearfield and adjoining counties, have failed, but by a compromise with their creditors have been granted an extension of four years.

Bad Beer. Ithaca, N. Y., Jan. 3.—John Killstrom drank some lager beer in Pat Sheh's saloon this morning and after two hours later. Fred Hoffman drank beer in the same place this afternoon and is now in a comatose condition without hopes of recovery.

Trunk Lines. New York, Jan. 3.—At the weekly meeting of the trunk line passenger agents to-day assistant commissioner Pierson made his report on the conference which he

### EMMA BOND'S HOME.

#### Where Petrus and Clement Have Gone.

St. Louis, Jan. 3.—D. spatches from Hillsboro say that matters are very quiet there, so far to-day, but that some bitter talk against the jurors is being indulged in but no violent feelings are manifested. Lee Petrus left for the west this morning and Clementie, starts for Irving, a small town, six miles away where he has friends.

A dispatch from Irving says when it became known that he was in the place he was given five minutes to leave and he went on once. Montgomery's whereabouts or plans are not definitely known. St. Louis, Mo., Jan. 3.—A dispatch from Taylorville, Illinois, the home of the Bond family, says that when the verdict of the jury became generally known there this morning the feeling and expression of the people was that justice can no longer be obtained. The friends of Montgomery and the other defendants, and they have friends, endorse the verdict of Col. Bond and talk more freely than for long time. The Bond family arrived here yesterday to attend the funeral of their relative who suicided yesterday. Grief over the loss of the defendant is expressed by the fact that they were here in company Col. Bond said this morning that the alibi was too strong for the jury and he had not counted on a conviction since that testimony was given. The funeral of Emma Bond took place this afternoon, at the Christian church and notwithstanding the intense cold weather an immense crowd was present.

A dispatch from Hillsboro to the Associated press says: There is still great excitement here. To-night at a meeting with Glenn, a prominent miller, as the leader, resolutions were adopted that if any of the defendants were taken to morning morning a public meeting should be called and they be notified to leave immediately. The movement made to hang the jury has been abandoned. The situation seems very nervous in regard to the situation.

### RAILROADS.

#### The New Tripartite Agreement.

Chicago, Jan. 3.—The conference between the managers of the lines in the new western railway alliance and the officers of the Chicago, Burlington & Quincy with a view to the inducing of that company to form a part of the new combination, is now in progress in this city. The Union Pacific, Rock Island, Milwaukee & St. Paul, and North Western are represented by the general manager of these roads. The only absentee being the representative of the Wabash which has no significance. The officers of the Burlington
